# Your Winning Combination: ASC & SRT

*Providing you the best Daily Trading, Compliance Testing, and more*

- ▶ With the ASC/Schwab Retirement Technologies (SRT) combination you receive industry leading:
  - Schwab RT Daily Trading: providing open architecture, flexibility, integration with various trading platforms
  - Compliance Testing from ASC accommodates virtually all plans, from the simplest to the most complex
  - Schwab Compliance Management Automation (CMA) Dashboard: manage a block of compliance projects while enabling collaboration with your plan sponsors during the compliance testing process
- ▶ ASC Plan Documents: housed on the DGEM (Document Generation & Management) System so you reap the benefits of ultimate automation and organization. Plus all documents are drafted by ASC's in-house ERISA experts
- ▶ Streamlined and efficient data sharing between ASC and SRT is fast and minimizes the risks of duplicate data entry errors
- ▶ Stability – ASC and Schwab both have 40+ years experience

# Your Winning Combination

*Seamless Integration Between ASC and Schwab RT*

## SRT Daily Trading Platform & More

- **Recordkeepers & Administrators:** Receive custom administration and automation for many labor-intensive, repetitive tasks, saving time, conserving resources, allowing you to devote more time to growing your business. Offers select 3rd party services at reduced cost.
- **Plan Sponsors & Financial advisors:** Receive robust options for analyzing the wellness of your plans, accessing published reports & automation dashboards, fulfilling participant fee disclosure requirements, and outsourcing the printing and mailing of participant statements. Provides financial advisors with enhanced reporting capabilities.
- **Plan Participants:** Receive individualized retirement saving strategies, automatic deferral increase options, mobile phone apps, automatic email notifications and other special features.

## The ASC/SRT Focus on Your Success Factor

- **Our Focus on You:** We can solutionize with you because our Sales & Support teams are comprised of Retirement Plan Industry professionals who understand your industry, challenges and goals.
- **The ASC & SRT Experience Factor:** ASC's Support and Training team members average 20 years of industry and ASC experience. We're in the unique position to service a huge range of clients from the start-up to the largest firms in the industry. And SRT has over 35 years experience.
- **Our Leadership:** Both ASC and SRT are industry leaders in both product innovation and outstanding client service.

- You can choose to host ASC in-house or on SRT's ASP (Application Service Provider). Both hosting options provide integration between Schwab RT and ASC Compliance Testing.
- Access to and integration with ASC 5500s and DGEM Plan Docs are available with the Schwab RT / ASC Compliance Testing combination.
- A pre-programmed link integrates the Schwab RT data into ASC's Compliance Testing System.
- Compliance Testing Corrective actions can be imported back into Schwab RT for processing.
- Non-Daily DC Schwab RT plans can also be processed in ASC's Compliance Testing System.

## ASC Products & ERISA Experienced Tech Support

### Compliance Testing

- Functionality accommodates simple to complex plans without having to go 'outside' the system
- Budget/Auto-Solve, flexible correction methods
- Side-by-Side ER Calc Illustrations
- Auto-Enrollment Reports and more

### Plan Docs – A Document Management System

Drafted & supported by ASC's in-house ERISA Experts, including John Griffin J.D., & LL.M. & Rich Hochman, J.D.

- Time savings and easy organization because documents are created within the automated DGEM (Document Generation & Management) System.
- Integration with Compliance Testing System ensures provisions are in synch and plans are being run in compliance with document provisions.

### ASC's Full Suite of Retirement Plan Products & Services – for the rest of your needs

- Automated 5500 filings - housed within the DGEM (Document Generation & Management) System
- Defined Benefit System, CRMW's, and more

### ERISA Experienced Tech Support

- Speak with a Support Team who understands your business. Everyone in ASC's technical support team had at least 10 years Retirement Plan Industry experience as an ASC user prior to joining ASC.
